Operational strength, subsidiaries lend merit to State Bank's re-rating

Tokerages, both foreign and domestic, recently raised their rating on SBI with a target price of up to \$3.0 in dicating potential upside of \$0 per cent from the present \$2.0?.

SRI's ability to generate strong operating profit, a strong balance shore (B/S), and strong growth potential of subsidiaries justifies the re-taing potential, even though it comes when the banking system is exposed to asset quality risk.

tifles the re-rating potential, even though it comes when the banking system is exposed to asset quality risk.

Nitin Aggarwal, analyst at Motilial Oswal, says: Besides lower funding costs (led by failing deposit rates), market share gains — both in advances and deposits — along with digital capabilities will help SBI maintain strong momentum in pre-provisioning operating profit (PPOP):

Event To Bad loams rise on account of the Covid-led slowdown and increase in provisions, SBI's a posted average amanual PPOP (excluding SS,000 crore of cumulative trading income) of 850,000 crore, which has helped absorb maximum loan loss provisions. Rising leverage and flows on digitisation should also help lower its higher cost-to-income ratio. Additional support will stem from unrealised investment gains, which could account for 18 per cent of SBI's loan loss provisioning requirement over the medium term, said Goldman Sachs in a recent report. SBI is also better placed in terms of asset quality. A large chunk, or close to 60

per cent of SBI's loans, is to public-sector unit employees, while 60-95 per cent of retail advances are to FSU staff.

CLSA analysts, led by Adarsh Parasrampuria, say: "SBI is better positioned than poers in terms of Covid impact on asset quality, as its share of government/PSU staffis disproportionately large." AB/S clear-up in the corporate segment in FY18 offers more comfort. The SBI management, during its June quarter analysts' call, had indicated a slippage ratio of 1.5-1.6 per cent in FY20 in the base case due to Covid-19. lower than over 2 per cent in FY20. Provisioning coverage ratio (PCR) of 85.3 per cent for the June quarter was also among the highest, and its capital position (liter-1 ratio of 11.4 per cent) fared better.

Consequently, many analysts foresee improvement in the valuation of SBI's core banking franchise, which was very low. SBI's investment across subsidiaries and YES Bank is worth RLSO trillion. Excluding this from its m-cap of RLSA trillion, the residual value of \$34,000 erore for SBI's

Among downside risks include a prolonged slowdown, significant stress at YFS Bank, and sharper-than-expected slippage of restructured assets into bad loans.

Lalitabh Srivastava, deputy vice-president at Sharekhan, says: "We don't see major downside risks from the Supreme Court order. While restructuring will help realign exposures, SBI's robust PCR and operating metrics offers strong comfort." Bank's 28,573 crore.

Work hard to improve vour credit score

This assumes significance with more lenders likely to increase their risk premiums

Bank of Baroda (BoB) recently hiked the credit risk premium it charges home loan customers (the risk premium is added to the exter charges nome in an customers (the risk premium is added to the external benchmark rate to a rrive at the bome loan rate). It also made its credit score criteria more stringent. State Bank of India, the country's largest lender, hiked its risk premium in May. The gains that accrue to a home loan borrower because of the decline in the repor rate get off-set, to some extent, when there is an increase in risk premium. BoB's best rate has risen from .85 per cent to 7 per cent thanks to the like in risk premium. The credit score needed to avail of this rate has risen from 726 and above to TS and above. The bank offered

range — the diliterence between what customers in the top and the bottom credit score slab pay — was 100 basis points (ps)s earlier, but has now increased to 185 bps.

Banks expect the stress in their loan books to rise and, hence, want to provision for this by charging a higher risk premium. Given the uncertainty surrounding the income and financial stability of borrowers and risk aversion among banks, the latter are leveraging the credit score to reduce their risk, says Adhil Shetty, chief executive officer, Bankbazaar. He
