

HPL'S VAST REACH

HPL IS AN ESTABLISHED ELECTRIC equipment

manufacturing company, manufacturing a diverse portfolio of electric equipment, including meters solutions, switchgears, lighting equipment and wires and cables, catering to consumer and institutional customers in the electrical equipment industry. The company had the largest share in the market for electricity energy meters in India in fiscal 2015, with one of the widest portfolios of

meters in India and the fifth largest market share for LED lamps during the corresponding period.

The company's manufacturing capabilities are supported by a large sales and distribution network with a pan-India presence. They currently manufacture and sell their products under the umbrella brand HPL, which has been registered in India since 1975.

HPL supplies the products through a network of authorized dealers or distributors to institutional, non-institutional and corporate customers. The company supplies switchgears, lighting equipment and wires and cables, primarily through a pan-India authorized dealer network, which comprises of over 2,700 authorized dealers or distributors, from warehouses located in 21

states and union territories in India that are managed by carrying and forwarding agents.

The authorized dealers or distributors further sell their products to over 18,000 retailers in India. In addition, the company supplies its products to power utilities, which primarily includes supply of meters under direct contractual arrangements to electricity boards and power distribution companies, as well as through project contractors.

Further, the company supplies its portfolio of products to developers of residential and commercial building projects, original equipment manufacturers and to industrial customers through a mix of direct sales and supply through its authorized dealer network.

ECOLE GLOBALE ENCOURAGES A HUNGER TO DISCOVER

AN EXCLUSIVE GIRL'S SCHOOL,

Ecole Globale has been ranked among the top five residential schools in India, and is a winner of the National Excellence Award for Progressive Education. Affiliated to the CBSE and CIE boards,

Ecole Globale caters to students from grade 4 to grade 12. With a focus on developing scholastic and co-curricular activities, the school believes in encouraging a "desire to know" and a "hunger to discover" among students. An added feature is the Finishing School which trains students in life skills. Spread over a majestic 45 acre campus, Ecole Globale offers world class infrastructure, including an all-weather swimming pool, amphitheatre, gymnasium, multipurpose auditorium, equestrian arena, shooting range,

tennis, squash and basketball courts, classrooms with digital learning facilities and computer labs which make learning seamless and unlimited.

Regular in-house training ensures the teachers are abreast of the latest teaching methodologies and assessment procedures. Ecoliers have been winners at the global round of World Scholar's Cup at Bangkok and Yale, "Best Idea" award at the International Youth Start Up conference, and champions at state athletics and inter-school shooting competition.
